## Multifunctional Airsoft Baton (Tonfa)

Powered by air compressed CO2  
(no gun powder is used)  
Provide semi-auto shooting.

Rubber ball

Training ball

Bleeding red ball

Pepper ball

### Feature

- ▶ An effective weapon to integrate tonfa with airsoft gun in one device.
- ▶ Construct of reinforced aluminum alloy with glass fiber housing for extreme durability. The versatility and dexterity of holding Tonfa in many ways makes tonfa one of the top 18 Chinese weapons.
- ▶ Powered by Co2 gas to fire non-lethal balls at speed up to 335FPS (110M/S).  
The user can fire various types of balls to meet different purpose or just make huge sound to intimidate target if no ball is installed.
- ▶ The most effective non-ammunition device as defense and offense to serve mid-range protection.  
Features of easy carrying, maintaining and storage makes T-3 an ideal tool for patrol, anti-riot, dispersal and sentry duty.
- ▶ With 1913 picatinny rail to use with additional tactical flashlight, recording device and green beam laser aimer/illuminator.
- ▶ The kinetic energy could be 10.85 joules based on velocity speed 110m/s, ball caliber 17mm and ball weight 4.07g.
