

RAYSUN JT-1210C8/1240C4 **WRD-3/JR-1208P/JR-22**

Wireless AV Transmitter/Receiver/Wideband Scanner

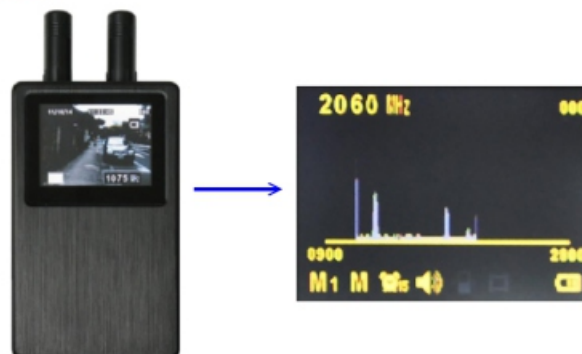

Wireless AV Transmitter

- ▶ Feature low power consumption, compact, lightweight, built-in rechargeable battery, and multiple frequency;
- ▶ JT-1204C: Connect to any type of 2.5mm camera and use as a DC5V power supply.
- ▶ 1210C8: With switchable 0.5W/1W design, portable type, effective range above 400m
- ▶ 1240C4: With super output power 4W; use with directional antenna to support up to 1km transmitting range in open field.

Wideband A/V Wireless Receiver

JR-22

Feature dual antenna/wideband frequency/auto scan/spectrum analysis/ record/snapshot/monitor/cam AV input/buzzing alert/vibrating alert

- ▶ Scanning range of 900 ~5800MHz, covering any type of analogy transmitters on the market; the user can effectively detect the target with the scanning sensitivity meter and spectrum analysis design.

Wireless A/V Receiver (Externally connect to TV)

JR-1208P

Integrate power source, antenna and receiving module. Without "return loss" problem.

- ▶ Compact, lightweight, built-in rechargeable battery; able to wirelessly receive AV signal outdoors to avoid any return loss caused by cable installation.

Wrist-wear Wireless A/V Receiver/Recorder

WRD-3

- ▶ Wrist-wear type, (hand-free operation) able to monitor and record the under-receiving AV signal wherever you go.
- ▶ Quick-release/installation design, DVR11 can be used as an individual device after removed from WRD-3. (See our DVR11 catalog). With built-in rechargeable battery.

Specification

Model	TX/RX	Weight	Size	Running time	Feature	Function
1210C8	0.5/1W	110g	55x23x85	90/60	Man carry	400m
1240C4	4W	550g	50x90x60	External power supply	Stationary tx	1000m
WRD-3	RX	300g	105x62x60	120	Wrist-wear receiver	Receiver, monitor video record
1208P	RX	135g	110x70x20	480	External receiver	Powerful receiving
JWS-22	RX	184g	125x75x28	150	Wide-band reception	Full function
